

Eco Clubs lead Earth Day celebration with meaningful Green Actions

On Earth Day 2025 (April 22), the Eco Clubs of various school in Sikkim held meaningful celebration as a part of Environment Education Programme. The day was observed with inspiring morning assembly and featured activities like plantation and weeding drive, herbal garden creation, cleanliness drive and eco-friendly craft making. Students reconnected to the learnings of waste segregation, composting, and climate action through fun and educational sessions. They also took part in drawing, essay, and poster competitions and pledged to live sustainably under the Mission LiFE initiative. Top five schools from the State were also appreciated by the Wipro Foundation for its efforts through the Wipro Earthian Program on the occasion.

Poshan Drive by Eco-Club Schools

Sikkim Eco-Club Schools observed Poshan Pakhwada 2025 from April 8 to 23 with various activities to promote healthy eating as a part of Mission LiFE theme "Sustainable Food System Adopted". To encourage and promote the benefits of nutritious meals, students were engaged in kitchen garden as co-curricular activity. To discourage children from junk and packaged food, poster-making, presentations, and food cards were used to spread awareness about balanced nutrition. Bringing and sharing home-cooked meals for improved mid-day meals was introduced, also to build a sense of generosity through food sharing. The program encouraged students to choose healthier foods and understand the importance of good nutrition.

Jal Pakhwada observed

As part of Jal Pakhwada in line with Mission LiFE action to Save Water, Sikkim Eco-Club Schools organized several activities to promote its conservation and sustainable use. The students were engaged in better understanding of drinking sources. Field trips along with cleanup at such water sources were amicably organized by the eco-club green teachers. The eco-club also conducted door-to-door community campaign to spread awareness to the wider community. Students were also engaged in various competitions at the school level.

World Aquatic Animal Day

On April 3, 2025, Sikkim Eco Club members observed World Aquatic Animal Day to raise awareness about the importance of aquatic life and the threats it faces especially amongst the primary level students. The day started with student speeches on protecting aquatic animals and their habitats. A quiz was conducted to engage students, and junior students took part in a drawing activity. Outstanding participants were appreciated and rewarded, and informative articles and artwork were displayed on the Eco Club board.
