# INTRODUCTION:

The Environment Education Programme (EEP) is a component of the revamped Central Sector Scheme, 'Environment Education, Awareness, Research and Skill Development (EEAESD)', and it aims to supplement the efforts of the Ministry of Education in the formal education front, through varied academic initiatives to impart non-formal environment education. The objective of this Programme is to sensitize children/youth, on issues related to the environment and to motivate them to adopt a sustainable lifestyle, through varied pedagogical initiatives like workshops, projects, exhibitions, campaigns, competitions, nature camps, summer vacation programmes, etc. the activities envisaged are aimed to motivating children/youth to think critically and form their habits in such a way as to live in harmony with nature.

Accordingly, the Implementing Agency (IA), Nagaland Pollution Control Board, organized activities like Sustainable Lifestyle Workshops, Competitions, and Nature Camps for the target beneficiaries. The Sustainable Lifestyle Workshop would give target beneficiaries a platform for developing a scientific temper and critical thinking, displaying creativity and nurturing values like compassion and empathy, in addition to strengthening concepts and opportunities to experiment and experience sustainable solutions, which use minimal resources, cause minimal pollution, and generate minimal waste. Exhibitions are intended to display (and/or sell) eco-friendly products made by target beneficiaries to the general public or audience to sensitize them and promote the use of such products. Nature camps would help target beneficiaries understand and appreciate India's unique natural diversity, varied ecosystems, flora, and fauna, as well as comprehend the threats to their survival. Thematic competitions like quizzes, debates, essays, painting, physical activities, community participation, etc., would give target beneficiaries a platform for expressing their ideas and spreading their word to the public. The initiatives would be synergized with the Prime Minister's Lifestyle for Environment (LiFE) mission.

The Government of India, Ministry of Environment, Forest & Climate Change (EE Division) vide letter No.3-3/2022-EE Dated August 23, 2024, vide letter No. 3-3/2022-EE Dated October 03, 2024, vide letter No. 3-3/2022-EE Dated November 28, 2024, the amount of Rs. 59,57,125/- in 1st and 2<sup>nd</sup> Tranches (1<sup>st</sup> Phase) and 84,20,000/- 1<sup>st</sup> Tranche (2<sup>nd</sup> Phase) respectively, with a total amount of Rs.20,334,250/- received by the Implementing Agency (IA) Nagaland Pollution Control Board (NPCB), to organized following activities:

1. Sustainable Lifestyle Workshops
2. Competitions
3. Nature Camps

## 1. SUSTAINABLE LIFESTYLE WORKSHOPS

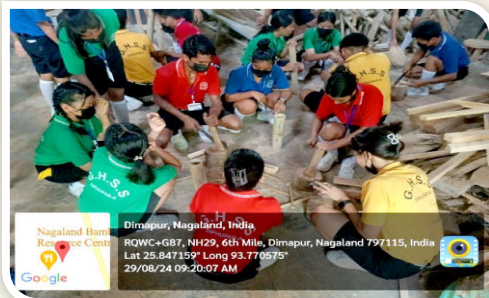

Sustainable Lifestyles are considered ways of living, social behaviors, and choices that minimize environmental degradation (use of natural resources, CO2 emissions, waste, and pollution) while supporting equitable socio-economic development and better quality of life for all. It also means understanding how our lifestyle choices impact the world around us and finding ways for everyone to live better and lighter. Sustainable Lifestyle Workshops on various topics such as Bamboo crafts and basket weaving, Banana Fiber weaving, and woodcraft workshops, creating rainwater harvesting infrastructure in homes/schools/offices, and practicing segregation of dry and wet wastes at homes were organized by the Implementing Agency, Nagaland Pollution Control Board. These workshops were organized to help the participating students understand various aspects of the importance of Bamboo, banana fibers, and wood as an eco-friendly alternative to Single-Use Plastics. The importance of the utilization and conservation of natural resources, such as water, and the various aspects of segregation of dry and wet waste for effective handling of waste contribute to the reduction of pollution generated out of waste mishandling.

**1.1 Bamboo Crafts & Basket Weaving:** Bamboo is found in abundance in the state of Nagaland, hence students/participants were given hands-on training and taught about the importance of alternative use of single-use plastic products like spoons, forks, baskets etc, which can help reduce plastic waste and help in waste management. A comprehensive workshop on Bamboo crafts and basket weaving was conducted with 8 different schools at the Nagaland Bamboo Resource Centre, Sovima, Chumoukedima district, and is listed in the photo gallery.

## 1.2: Sustainable Lifestyle workshop on Banana Fibre Weaving:

Banana fiber products are strong, versatile in their uses, and require no chemicals in growing or fiber production. It is eco-friendly and has a strong moisture absorption quality. Hands-on training on banana fiber weaving to make various products like baskets, key chains, coasters, etc, and also learn about the advantages and use it as an alternative to single-use plastic products. Altogether 7 different schools participated in the sustainable lifestyle workshop on Banana fibre weaving.

**1:3: Create rainwater harvesting infrastructure in homes/schools/offices:** A comprehensive workshop on how to create/construct low-budget rainwater harvesting infrastructure in schools, homes, and offices. This workshop will enable students/citizens to understand various aspects of the importance of the utilization and conservation of natural resources such as water. Deliberation on various customized, effective and efficient rainwater harvesting methods will help disseminate the information to the targeted groups through students. Altogether, 5 Schools participated in the workshop.

**1.4: Sustainable lifestyle workshop to inculcate the practice of segregation of dry and wet waste at homes:** Workshops and seminars were conducted in educational institutions to enable students to understand various aspects of the segregation of dry and wet waste for effective handling of waste at homes. Such understanding and action will thereby result in the reduction of pollution generated because of waste mishandling/mismanagement at home. Altogether 28 schools from various districts in Nagaland participated in the sustainable lifestyle workshop.

**1.5: Sustainable Lifestyle workshop on woodcraft:** A comprehensive workshop and hands-on training on woodcrafts, as woodwork is a wonderful medium for expressive art and creative design, and it also has the benefit of encompassing many other areas of learning and development, providing a truly cross-curricular activity. Mathematical thinking is developed, scientific knowledge is gained, technological understanding is developed through working with tools, and children become engineers as they construct. Woodwork is exceptional for developing children's creative and critical thinking skills as children tinker and experiment with the possibilities of wood and tools, and then go on to express ideas and resolve their work. Also helps in eco-friendly alternatives to single-use plastic items. Altogether, 6 schools participated in the workshop.

## Competitions

- 2. Competitions:** Competitions based on important environmental days such as World Environment Day, Ozone Day, and Wetlands Day were conducted for Eco clubs students. Different schools, colleges, and universities conducted awareness activities to sensitize students across Nagaland on the importance of wetlands, ozone, the environment, and their conservation. Various activities like Plantation drives, cleanliness drives, interactive sessions like seminars, workshops, and various competitions like essay, speech, painting, poster competitions, and drawing competitions were conducted to commemorate important environmental days. The list of 740 schools is in Annexure 1.

## Nature Camps

3. **Nature Camps:** The objective of the Nature camp was to provide participants with an opportunity to disconnect from the hustle and bustle of daily life, and engage themselves in nature and outdoor recreational activities. The camp aimed to provide students with an immersive experience in the pristine wilderness of nature, focusing on environmental education, biodiversity exploration, and fostering a sense of control towards nature among the participating students. It also aimed to expose students to the rich biodiversity and ecological significance of nature, educate them about environmental conservation practices and sustainable living, and promote hands-on learning experiences in natural settings to cultivate a deeper connection with the environment. The purpose of the camp was also to make the students learn about the importance of Nature and natural resources and to instill concern about the importance of the various flora and fauna in the forest and how they co-exist together in harmony. Students embarked on guided hikes through the lush forests and scenic trails of the Western side of the famous Dzükou Valley, Tsuchoru (Phema Khel Forest & Biodiversity Reserve Area), Jakhama, Dzukozu terraced field and Cheneche hill, Jakhama accompanied by a knowledgeable guide who provided insights into the local flora and fauna. Some of the students also collected the waste along the trekking trail of Khonoma Dzukou and also in Dzulekie. The camp also provided an immersive experience in the pristine natural surroundings of Dzüleke and Sheep Farm at Poilwa, Peren District, allowing students to connect with nature and learn about biodiversity conservation. The camping trip also had a reflection session where students shared their thoughts and experiences. The camp emphasized the importance of preserving fragile ecosystems and encouraged students to be more aware of environmental management in their communities. Overall, the Nature Camp provided an enriching experience for school and college students, empowering them to take proactive steps towards protecting the environment and fostering a culture of sustainability. The nature camp was a resounding success, providing students with a transformative learning experience and instilling in them a sense of responsibility towards environmental conservation and sustainable living practices.

During the camping trip, a variety of activities were organized to cater to the diverse interests of the participants. These activities included:

- **Hiking:** Participants set out on scenic hikes along designated trails, exploring the natural beauty of the surrounding area and enjoying beautiful views of the landscape.
- **Nature Walks:** Guided nature walks were conducted to introduce participants to the local flora and fauna, highlighting the ecological significance of the region.

Participants stayed in tents provided by the organizers, which were set up in designated camping areas equipped with basic facilities. This camping trip provided participants with a memorable outdoor experience filled with adventure and relaxation. It offered an opportunity for students to reconnect with nature. It also served as a reminder of the importance of outdoor recreation in promoting physical and mental well-being and a deeper appreciation for the environment.
