TABLE OF CONTENTS:

1. Sustainable Lifestyle Workshop _____ 3-8

Sl No	List of Topics	Total No of workshops
	Bamboo crafts & basket weaving	2
	Banana fiber weaving	2
	Woodcraft workshop	2
	Workshop on creating rainwater harvesting infrastructure in homes/schools/offices	1
	Practice segregation of dry and wet waste at homes	4
Total		11

2. Exhibition _____ 9-10

Sl No	Particulars	Total No of exhibition
	Exhibition on bamboo crafts products as eco-friendly alternatives	1
	Exhibition on alternative use of SUP by recycling/reusing them	1
Total		2

3. Competition _____ 11-13

Sl No	Particulars	Total No of Schools
	Campaign of wetlands conservation by Eco clubs (*List of Eco clubs enclosed as annexure 1)	128 Eco clubs

4. Nature Camp _____ 14-18

Sl No	Name of schools/colleges/organizations	Total no of participants
	Brighter Academy	53
	Don Bosco Higher Secondary School, Sechu Zubza	52
	Government Higher Secondary School, Nagarjan	51
	Modern College, Piphema	56
	Rintaniemi Neighborhood Children's Home, Dimapur	52
	St Joseph University, Chumoukedima	51
	Tribal Welfare Society	51
Total		366

Introduction:

The Environment Education Programme (EEP) is a component of the revamped Central Sector Scheme, 'Environment Education, Awareness, Research and Skill Development (EEAESD)' and it aims to supplement the efforts of the Ministry of Education in the formal education front, through varied academic initiatives to impart non-formal environment education. The objective of this Programme is to sensitize children/youth, on issues related to the environment and to motivate them to adopt a sustainable lifestyle, through varied pedagogical initiatives like workshops, projects, exhibitions, campaigns, competitions, nature camps, summer vacation programmes, etc. the activities envisaged are aimed to motivating children/youth to think critically and form their habits in such a way as to live in harmony with nature.

Accordingly, the Implementing Agency (IA) Nagaland Pollution Control Board, organized various activities like Sustainable Lifestyle Workshops, Exhibitions, Competitions, and Nature Camps to the target beneficiaries. The Sustainable Lifestyle Workshop would give target beneficiaries a platform for developing scientific temper and critical thinking, displaying creativity and nurturing values like compassion and empathy, in addition to strengthening concepts and opportunities to experiment and experience sustainable solutions, which use minimal resources, cause minimal pollution and generate minimal waste. Exhibitions are intended for the display (and/or sale) of eco-friendly products made by target beneficiaries to the general public or audience to sensitize them and promote the use of such products. Nature camps would help target beneficiaries to understand and appreciate India's unique natural diversity, varied ecosystems, flora, and fauna, as well as to understand the threats to their survival. Thematic competitions like quizzes, debates, essays, painting, physical activities, community participation, etc. would give target beneficiaries a platform for expressing their ideas and spreading their word to the public. The initiatives would be synergized with the Prime Minister's Lifestyle for Environment (LiFE) mission.

The Government of India, Ministry of Environment, Forest & Climate Change (EE Division) vide letter No.3-3/2022-EE Dated September 18, 2023, vide letter No. 3-3/2022-EE Dated November 29, 2023, vide letter No. 3-3/2022-EE Dated December 26, 2023, vide letter No. 3-3/2022-EE Dated January 22, 2024, received by the Implementing Agency (IA) Nagaland Pollution Control Board (NPCB), to organized following activities:

1. Sustainable Lifestyle Workshops
2. Exhibitions
3. Competitions
4. Nature Camps

1. Sustainable Lifestyle Workshops:

Sustainable Lifestyles are considered as ways of living, social behaviors, and choices, that minimize environmental degradation (use of natural resources, CO2 emissions, waste, and pollution) while supporting equitable socio-economic development and better quality of life for all. It also means understanding how our lifestyle choices impact the world around us and finding ways for everyone to live better and lighter. Sustainable Lifestyle Workshops on various topics such as Bamboo crafts and basket weaving, Banana Fiber weaving, and woodcraft workshops, creating rainwater harvesting infrastructure in homes/schools/offices, and practicing segregation of dry and wet wastes at homes were organized by the Implementing Agency Nagaland Pollution Control Board. These workshops were organized to help the participating students understand various aspects of the importance of Bamboo, banana fibers, and wood as an eco-friendly alternative to Single-Use Plastics. The importance of utilization and conservation of natural resources such as water and the various aspects of segregation of dry and wet waste for effective handling of waste contributes to the reduction of pollution generated out of waste mishandling.

2. Exhibition:

A comprehensive exhibition was conducted to exhibit various bamboo crafts products as an eco-friendly alternative and also alternative use of Single-Use Plastics by recycling and reusing them into products like pen stands, flowerpots, eco-bricks, decorative items, etc. This exhibition enables the students to understand the importance of eco-friendly alternatives and the impact Single Use Plastic has on our environment in creating awareness and also helps the students to be aware of the positive impacts by practicing small alternatives to reduce plastic waste and help them to learn the importance of eco-friendly alternatives. The exhibition was organized during the college festival of the National Institute of Technology (NIT) Nagaland known as Ekarikthin, where visitors from in and around the district and students from different schools and colleges came to witness the event as well as participate in different competitions.

3. Competitions :

Competitions based on important environmental days such as the Wetlands Day were conducted for the students. The Ministry of Environment, Forest and Climate Change, Government of India launched a year-long campaign named “Saved Wetland Campaign” (SWC) in 2023 as a people’s movement to celebrate, revive, and rejuvenate wetlands. Different kinds of awareness activities were conducted from 15.01.2024 onwards, by different schools, colleges, and universities, to sensitize students all across the state of Nagaland on the importance of wetlands and their conservation. Various activities like Mass awareness rallies, cleanliness drives of ponds, and compounds, interactive sessions like seminars, and workshops, and various competitions like essay, speech, painting, poster competitions, Report/paragraph writing, Drawing, Spot essays, and PowerPoint Presentation competitions were conducted to commemorate World Wetlands Day. Altogether 128 schools participated in the Wetlands Day conservation.

4. Nature Camps:

The objective of the Nature camp was to provide participants with an opportunity to disconnect from the hustle and bustle of daily life, and engage themselves in nature and outdoor recreational activities. The camp aimed to provide students with an immersive experience in the pristine wilderness of nature, focusing on environmental education, biodiversity exploration, and fostering a sense of control towards nature among the participating students. It also aimed to expose students to the rich biodiversity and ecological significance of nature, educate them about environmental conservation practices and sustainable living, and promote hands-on learning experiences in natural settings to cultivate a deeper connection with the environment. The purpose of the camp was also to make the students learn about the importance of Nature and natural resources and to instill concern about the importance of the various flora and fauna in the forest and how they co-exist together in harmony. Students embarked on guided hikes through the lush forests and scenic trails of the Western side of the famous Dzūkou Valley, accompanied by a knowledgeable guide who provided insights into the local flora and fauna. Some of the students also collected the waste along the trekking trail of Khonoma Dzukou and also in Dzulekie. The camp also provided an immersive experience in the pristine natural surroundings of Dzüleke and Sheep Farm at Poilwa, Peren District, allowing students to connect with nature and learn about biodiversity conservation. The camping trip also had a reflection session where students shared their thoughts and experiences. The camp emphasized the importance of preserving fragile ecosystems and encouraged students to be more aware of environmental management in their communities. Overall, the Nature Camp provided an enriching experience for college students, empowering them to take proactive steps towards protecting the environment and fostering a culture of sustainability. The nature camp was a resounding success, providing students with a transformative learning experience, and instilling in them a sense of responsibility towards environmental conservation and sustainable living practices.

During the camping trip, a variety of activities were organized to provide the diverse interests of the participants. These activities included:

- **Hiking:** Participants set about on scenic hikes along designated trails, exploring the natural beauty of the surrounding area and enjoying beautiful views of the landscape.
- **Nature Walks:** Guided nature walks were conducted to introduce participants to the local flora and fauna, highlighting the ecological significance of the region.

Participants stayed in tents provided by the organizers, which were set up in designated camping areas equipped with basic facilities. This camping trip provided participants with a memorable outdoor experience filled with adventure and relaxation. It offered an opportunity for students to reconnect with nature. It also served as a reminder of the importance of outdoor recreation in promoting physical and mental well-being and a deeper appreciation for the environment.

NAGALAND POLLUTION CONTROL BOARD

Signal Point, Dimapur 797112

Email: ngc.nagaland@yahoo.com / npcb2@yahoo.com Mobile: 9862090801

DETAIL PROJECT REPORT**A. Sustainable Lifestyle Workshops:**

Sustainable Lifestyle workshop to reduce plastic by using alternative items and control pollution by organizing workshops about eco-friendly products like traditional basket weaving, bamboo basket weaving, banana fiber weaving, wooden plates, spoons, forks, etc. maintain the garden, plantation drives to adopt a sustainable lifestyle in conserving the environment, construct water harvesting structure in the schools.

List of topics:**1. Bamboo crafts & basket weaving:**

A comprehensive workshop on bamboo crafts and basket weaving as bamboo is found in abundance in the state of Nagaland. Hence the importance of alternative use of plastic products through basket weaving & crafts can help reduce plastic waste and help in waste management.

Sl. No	Heads of Expenditure	Amount Proposed (₹)	Total no. of Workshops	Total Amount Proposed (₹)
1	Workshop materials and tools	6,00,000/-	2	9,10,000/-
2	Engagement of Resource persons/ institutions	30,000/-		
3	Publication	1,00,000/-		
4	Travel	1,50,000/-		
5	Contingency	30,000/-		

(Rupees Nine Lakhs Ten Thousand only)

2. Banana fiber weaving:

A comprehensive workshop on banana fiber weaving as banana fiber is a strong and versatile fiber and has minimal impact due to its water consumption, low energy, and requires no chemicals in growing or fiber production. It is eco-friendly and has strong moisture absorption quality. The students can learn about the advantages and alternatives of banana fiber as an alternative to Single Use Plastics.

Sl. No	Heads of Expenditure	Amount Proposed (₹)	Total no. of workshops	Total Amount Proposed (₹)
1	Workshop materials and tools	6,00,000/-	2	9,10,000/-
2	Engagement of Resource persons/ institutions	30,000/-		
3	Publication	1,00,000/-		
4	Travel	1,50,000/-		
5	Contingency	30,000/-		

(Rupees Nine Lakhs Ten Thousand only)

3. Woodcraft workshop:

A comprehensive workshop on woodcrafts as woodwork is a wonderful medium for expressive art and creative design and it also has the benefit of encompassing many other areas of learning and development providing a truly cross-curricular activity. Mathematical thinking is developed, scientific knowledge is gained, technological understanding is developed through working with tools, and children become engineers as they construct. Woodwork is exceptional for developing children's creative and critical thinking skills as children tinker and experiment with the possibilities of wood and tools and then go on to express ideas and resolve their work. Also helps in eco-friendly alternatives to Single Use Plastic items.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total no. of workshops	Total Amount Proposed (₹)
1	Workshop materials and tools	6,00,000/-	2	8,80,000/-
2	Engagement of Resource persons/ institutions	30,000/-		
3	Publication	1,00,000/-		
4	Travel	1,20,000/-		
5	Contingency	30,000/-		

(Rupees Eight Lakhs Eighty Thousand only)

4. Create rainwater harvesting infrastructure in homes/schools/offices:

A comprehensive workshop on "Create rainwater harvesting infrastructure in homes/schools/offices" will enable students to understand various aspects of the importance of utilization and conservation of natural resources such as water. Deliberations on various customized effective and efficient rainwater harvesting methods will help disseminate the information to the targeted groups through students.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total Amount Proposed (₹)
1	Workshop materials and tools	1,50,000/-	3,65,000/-
2	Engagement of Resource persons/ institutions	15,000/-	
3	Publication	50,000/-	
4	Travel	1,20,000/-	
5	Contingency	30,000/-	

(Rupees Three Lakhs Sixty Five Thousand only)

5. Practice Segregation of dry and wet waste at homes:

A comprehensive workshop on "Practice Segregation of Dry and Wet Waste at Homes" will enable students to understand various aspects of the segregation of dry and wet waste for effective handling of waste contributing to the reduction of pollution generated out of waste mishandling.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total No of workshops.	Total amount Proposed (₹)
1	Workshop materials and tools	12,00,000/-	4	16,40,000/-
2	Engagement of resource persons/ institution	1,60,000/-		
3	Publication	1,00,000/-		
4	Travel	1,50,000/-		
5	Contingency	30,000/-		

(Rupees Sixteen Lakhs Forty Thousand only)

Workshops will be conducted in 6 selected districts for a period of One day with the following structure:

1. About 150-200 students will be selected from 6 districts. As such the students expected to attend the workshop is $200 \times 11 = 2200$.
2. As per the topic selected in the action plan for the workshop, a one-day workshop will be conducted by the subject matter experts, display of machinery/ presentation/posters/animated videos, etc., to the students.
3. The structure of the workshop will be introductory, Exchange of thoughts, Embrace and Innovate.

B. Exhibition:

1) Exhibition on bamboo crafts products as eco-friendly alternatives:

A comprehensive exhibition will be conducted to exhibit display various bamboo crafts products that can be an eco-friendly alternative to Single Use Plastic. This exhibition will enable the students to understand the importance of eco-friendly alternatives and the impact Single Use Plastic has on our environment. This exhibition will create awareness and also help the students to be aware of the positive impacts by practicing small alternatives to reduce plastic waste and help them to learn the importance of eco-friendly alternatives.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total Amount Proposal (₹)
1	Exhibition materials and tools	3,50,000/-	6,30,000/-
2	Engagement of resource person/institution	30,000/-	
3	Publication	1,00,000/-	
4	Travel	1,20,000/-	
5	Contingency	30,000/-	

(Rupees Six lakhs Thirty Thousand only)

2) Exhibition on alternative use of SUP by recycling/ reusing them:

A comprehensive exhibition on alternative use of Single Use Plastic by recycling and reusing them into products like pen stands, flowerpots, eco-bricks, decorative items, etc. This will create awareness among the students and help them understand the importance of the impact of plastics in our lives and how they can reduce or reuse it.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total Amount Proposal (₹)
1	Exhibition materials and tools	3,50,000/-	6,30,000/-
2	Engagement of resource person/ institution	30,000/-	
3	Publication	1,00,000/-	
4	Travel	1,20,000/-	
5	Contingency	30,000/-	

(Rupees Six lakhs Thirty Thousand only)

Exhibitions will be conducted district level for a period of 3 days with the following structure:

1. As per the topic selected in the action plan for the workshop, a 2- or 3-days Exhibition will be conducted by the subject matter experts, display of machinery/ presentation/posters/ instructive videos, etc. to the students, in a selected school of the selected districts.
2. Exhibition will be held/ conducted in 2 districts. These two districts will be chosen in such a way that it covers the entire district.

C. Competition:

1. Six (6) Thematic competitions based on important environmental days will be conducted for the students. State-level competitions like painting, drawing, debate, quizzes, etc., on themes related to important days such as wildlife protection/preservation, biodiversity conservation, environmental pollution, etc., to provide a platform to create awareness among the students and the general public.
2. 500 students for each competition from all 16 districts will be given the opportunity to participate in the competition.
3. Awards and certificates will be issued to the winners.

Sl. no	Heads of Expenditure	Amount Proposed (₹)	Total Amount Proposed (₹)
1	Competition materials	3,00,000/-	6,40,000/-
2	Publication	1,00,000/-	
3	Travel	1,50,000/-	
4	Contingency	30,000/-	
5	Awards and certificates	60,000/-	

(Rupees Six lakhs Forty Thousand only)

D. Nature camp on Wildlife Week and International Mountain Day:

- i) Nature camp will be organized forming four-five districts as one cluster with 50 selected students from each district. Likewise, 7 camps will be conducted. The camp will be organized during wildlife week and on international mountain day giving an opportunity for the students in the camp to appreciate nature and natural resources as well as their importance. To care for the environment, nature, and wildlife and instill concern for nature and natural resources conservation, introducing a variety of flora and fauna of the forests, grassland, rivers, wetlands, and other ecosystems. Providing an exciting and adventure-filled opportunity for children to explore natural areas and wildernesses and motivating the students to adopt eco-friendly lifestyles to protect the environment, nature, and natural resources and helping them develop skills of leadership, teamwork, discovery, etc.
- ii) 7 nature camps on the above theme will be conducted across the state giving exposure to 350 students from 16 districts.
- iii) The expenditure proposed for conducting seven (7) nature camps across the state will be **7 nos. x ₹ 200,000/- = ₹ 1,400,000/-**
